

The diagram shows a building facade with a grid of windows. The building is divided into two main sections by a horizontal line. The upper section is taller and has a red brick wall on the right side. The lower section is shorter and has a red brick wall on the right side. The windows are arranged in a grid pattern. The building is set against a background of a grey brick wall on the left and a red brick wall on the right. The building is yellow with black outlines for the windows and walls.

A 3D architectural rendering of a multi-story building. The building has a yellow facade and a red roof. On the left side, there is a large glass facade with multiple windows. The building is shown from a low angle, emphasizing its height. The background is a plain white surface.

This architectural drawing shows a side elevation of a building. The structure features a prominent red-tiled roof with several gables and dormers. The main walls are a light yellow color, punctuated by numerous windows of varying sizes, including some with shutters. A section of the roof on the left is depicted with diagonal hatching. The building is set against a plain white background.
